A Letter from Ann to Her Sister Georgia  
2014

When I was little growing up with our four brothers I prayed for a little sister and God gave me you the Best Sister Ever! You used to always ask me if I got upset cause Mama made me comb your hair and dress you? But I was so happy to do that, you were my living doll! When we got older, we shared everything. We thought so much alike, we would end up wearing the same colors or prints without talking to each other. We were there through Good Times and Bad for each other. You took on the role of taking care and guiding me. I'm going to Miss You So Very Much. You were Loved by My Heart is Heavy, God needed an Angel so save a place for me. I know you'll be looking out for me as you always have, I Love You My Sister My Best Friend ...
